Reasons for allowance

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings in the application are hand crafted. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

2. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention distinguished over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious the method for organizing a dialogue of messages between a moderator and a number of participants in communication over a network comprising of providing, by the moderator, to the participants a question that solicits an answer; receiving from each of one or more sending participants a first-round answer in response to the question; grouping at least some of the participants into a plurality of groups; for at least a plurality of the sending participants, automatically sending the received first-round answer to one or more other receiving participants with whom the sending participant is grouped; and receiving from each of one or more of the receiving participants a follow-up response to the first-round answer from the sending participant.

Conclusion

3. Any comments considering necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee.
